

YOKOMO NEW PRODUCT RELEASE

Zapper Yokoyama's

FLASH Matched Batteries!!

(X4200 IB • 6 Cell)

Reknown throughout the EP racing community, battery specialist Zapper Yokoyama has now chosen the popular YOKOMO X4200IB high performance NiMH battery for his new line of matched cells! Using a proprietary zapping and matching process developed over many years, these top quality matched batteries are designed for the serious racer.

These batteries will be sold under the new FLASH brand, and will be distributed exclusively by Yokomo Ltd.

FLASH Battery Types

Zapper Yokoyama rates cells by their performance in 3 areas (Voltage, Capacity, Internal Resistance).

- ★Triple A (Red Label) ...Cells with exceedingly high marks in all 3 categories.
- ★Double A (Blue Label) ...Cells with high marks in all but one of the 3 categories.
- ★Single A (No Label) ...Cells that fall short in one category, or barely falls short in two categories. Although practice packs, only select cells are used.
